Course Co-directors

Jeanette Ramos, MD, FCAP & Soheila Korourian, MD, FCAP

Course Goals & Objectives

This course is designed to update the pathologists in the latest advances in pathology. The program will consist of lectures, predominantly based on case presentation followed by discussion to provide pathologists insight in difficult diagnosis. In addition to morphologic presentation, recent advances in classification and the use of molecular testing and validation of new antibodies will be discussed.

Target Audience

Pathologists and pathologists in training

General Information

The tutorial consists of a course. The course will be given at UAMS (IDW room 115 A &B)

Course Material

All course material containing the presenter's slides presentation, PDF format, and references will be available for download 24 hours prior to the tutorial online to all registered participants.
