

April 17-18, 2020

**BIG CEDAR LODGE
612 Devil's Pool Road
Ridgedale, MO**

The 2020 Pediatric Infectious Disease Update, presented by the Division of Pediatric Infectious Diseases at Arkansas Children's Hospital, is a two-day seminar held annually for family physicians, general practitioners, pediatricians, internists, pharmacists, and nurses. The course provides in-depth discussion of infectious diseases and highlights new treatments for diseases seen frequently by practicing physicians.

35th Annual Pediatric Infectious Diseases Update

At the conclusion of the program, participants should be able to:

- Discuss the differential diagnosis and diagnostic testing of various infectious diseases and clinical etiologies presented
- Develop strategies for implementing the most current recommended group B strep prophylaxis and postnatal evaluation and treatment for early onset sepsis
- Recognize, diagnose and manage patients with measles or exposed to measles
- Discuss the presentation, diagnosis and management of acute flaccid myelitis
- Discuss the epidemiology and identify the evidence-based treatment of community acquired pneumonia
- Facilitate the proper evaluation and treatment of a child exposed to maternal syphilis
- Devise a treatment plan for community acquired pneumonia, accounting for risk factors for drug resistance
- Evaluate a child for neonatal herpes and develop a treatment plan

Accreditation

Accreditation: In support of improving patient care, this activity has been planned and implemented by University of Arkansas for Medical Sciences and Arkansas Children's Hospital. University of Arkansas for Medical Sciences is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.
